- -
- Clear explanation and discussion on knowledge

- Really help with the problem sets
- Thomas is very effective at communicating how to tackle the different problems in the problem sets, and his teaching style is very engaging.
- Thomas keeps the class engaging and interactive.
- Thomas was fantastic! He communicated very clearly, made the material highly relevant, and explained everything in a way that was easy to understand. Truly excellent teaching.
- Thomas was great! His teaching style was very easy to follow and he's a great listener and always great with questions. I liked the interactive environment of his class - most of my learning came from here
- Very good at explaining topics and breaking things down

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- -
- I think it would be helpful if Thomas offered more than 4 office hour slots a week; it's hard to get help with the course, since he leaves right after the seminar to go to his office hours, and it's difficult to get one of the few bookings.
- N/A
- Needs to open up office hours more - do not like the sign up method, makes it difficult to stop by for a question.
- Nothing - perhaps more opportunities for course office hours. Booking individual slots was often difficult as they would fill up so soon. Group office hours for course content and maybe one on ones for research would be very useful

1.6) Overall, I am satisfied with the teaching by this teacher on the course.
