1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- 1) Going a bit slower at times
- At the end of the class we usually rush through the final questions, it would be helpful to have comments on these.
- At times goes way too fast and gets really deep into the mathematics but then at times we are told we don't need to know certain mathematics, so its unclear sometimes if its just for the sake of explaining or something we really need to know.
