- He explained the contents very clearly. He also has the best disposition to answer all the questions, even though one can think is a very basic question. I felt very comfortable in the class and I learned a lot.
- He is a terrific teacher. Delivers the information clearly and in an easy way. Many times he answered my questions before I asked. And always give complete answers, building on them to other important concepts.
- He is clear to his points, helpful to understand the concepts.
- He is very intelligent and can explain the materials effectively in limited time. He can answer all questions, technical and foundation. He always reviews the materials first and then dive into the problem set solution. He always gives time for us to think critically and answer the questions by ourselves first.
- He wants all to learn the same way. He uses a lot of examples to give context to some tough ideas.
- He was very knowledgable.
- Tom always recaps concepts and methods effectively, which is useful for students. He is patient when students don't understand and he is always encouraging students to ask questions.
- Tom is outstanding at clarifying and explaining topics, and made the PP455 experience much better.
- Tom is so dedicated to his teaching and students! Everyone comes out the seminars and they feel the dots are being connected.
- Very good at explaining difficult concepts

- Very patient in explaining the concept.

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- -
- n/a. Excellent
- Nothing.
- Sometimes it was difficult because he was teaching a class with so many different levels of experience, so sometime he focused on more advanced or fast paced teaching which was harder for those who are beginners learning the basics.
- The pace of the class can sometimes feel a bit rushed, so it would be great if Tom could slow down when explaining concepts. It may also be helpful if Tom could share more real life examples of how we can use the concepts and methods.
- The teacher can arrive earlier and not more than 5 minutes after the class starts. Because time really matters in this course, especially seminar.

1.6) Overall, I am satisfied with the teaching by this teacher on the course.
